About Us

Kent Offshore was established in 2018, following 15 years of industry experience and expertise to deliver unparalleled asset preservation services. With a foundation rooted in a deep understanding of offshore, renewable and marine operations, our company has quickly emerged as a trusted partner for clients seeking reliable solutions to safeguard their assets.

Our journey began with a commitment to excellence and a passion for innovation, driving us to develop tailored strategies that address the evolving challenges of offshore asset management. From our inception, we have prioritized collaboration, integrity, and client satisfaction, earning us a reputation for reliability and excellence in the field. At Kent Offshore we are proud to continue our legacy of industry leadership, delivering peace of mind to our clients through superior asset integrity preservation services.

Technical Services

Kent Offshore are able to provide technical services to the offshore and onshore, oil & gas, renewable and marine industries, with further services offered for bridges, cranes, machinery, cargo and other high risk corrosion assets preservation needs:

- **Structural Condition Surveys**

- **Mothballing & Rig Stacking**
- **Spare Parts/Warehouse Preservation**
- **Dry Dock Supervision, Repairs and Coatings**
- **Asset Packaging**
- **Maintenance Schedules & Inspection Programmes**
- **Remote Inspections - Drone ROV**
- **Training Program Implementation**

Partnerships

Corroless™ products are British manufactured tested to the most demanding standards by independent national and international authorities, with proven, real-world, reliable performance:

- Rust Stabilizing Primers
- Reinforced Finishes
- Corrosion Inhibitors

Corroless™ user-friendly coatings offer outstanding protection in the harshest conditions, while providing a sustainable coating solution for long-lasting and durable functionality.

Corroless™ offer coating solutions for applications to:

- Steel and Concrete Structures and Bridges
- Internal and External Pipelines
- Offshore Rigs and Marine Shipping
- Chemical Plants

Zerust® Oil & Gas has designed products and solutions to provide tangible savings for the oil and gas industry to support the following markets and sectors:

- Exploration and Production
- Refineries
- Terminals
- Equipment suppliers
- Pipelines and transportation

Zerust® Oil & Gas technologies have been successfully implemented across refineries, oil rigs, and tank farms around the world. By combining our proprietary Zerust® inhibitor formulations with some of the traditional corrosion mitigation methods in use today (cathodic protection, coatings, etc.), the advanced technology yields several unique and innovative solutions that counter expensive corrosion problems.

The ASATech cover is an advanced long-term storage cover with a soft nonwoven light weight material. It enables storage and transport of products in any surroundings while avoiding damage and corrosion up to level C5. ASATech covers are suitable for:

- Wind Turbine Parts
- Cranes
- Large Asset Transportation/Storage

The newest generation of the ASATech cover are easy to mount and consists of 20% recycled material. The cover has the same performance but is 100% recyclable – furthermore it reduces customer's cost.

By providing optimal cost and environmentally friendly packaging solutions, ASATech are today among the most innovative in the wind and machine industry.

Teamac® is a well known brand in the Marine market both in leisure and the commercial market sectors. Teamac® manufacture and distribute high quality British Marine Paints that will protect & enhance your boat. We also combine over 100 years of product knowledge with modern technology to produce exceptional paints.

Teamac® R&D chemists have spent years perfecting our marine products, tweaking and testing formulations to find those which perform to clients high expectations. Teamac® antifouling are also independently tested for efficacy and performance levels. From sailing dinghies to super yachts Teamac® are here guide you through every step of your painting project.
