

# Stop Corrosion, Stop Flange Damage, Stop Debris In Your Piping Systems

# flangeMAGS®

flangeMAGS™ are a magnetic flange protector, designed to protect the gasket surface area of a raised face flange (and ring type joint), as well as the interior of pipe spools and vessels. This can be used during the welding and fabrication processes, as well as awaiting blasting and painting to keep debris out of your steel components.

Save time and money with P3 - flangeMAGS™ :

- Reusable
- Easy to install
- No adhesive
- Easy to remove
- Protects gasket seat from minor mechanical damage
- Keeps debris out of pipe spool, vessels or valves
- Custom Sizes Available
